New horizons in zinc with VM ZINC®

Peddie School (USA) - Architect: RMJM Hillier - Contractor: Skanska USA Building, Inc. - Installer: Aetna Roofing Corporation

VM ZINC© is selected by architects worldwide for roofing and cladding projects. Its elegant colours, exceptional malleability, durability and harmonious blending with other materials, make VM ZINC® a material of choice.

VM ZINC offers a very large range of products to meet all your requirements. Drawings and specifications, needs of clients, research of aesthetic and respect for the environment.
